Hear from Presidential advisor, Middle East and National Security Analyst, and author Dan Senor about the security situation in Israel and how a country of 7.1 million people, only 60 years old, surrounded by enemies, in a constant state of war since its founding, and with no natural resources produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK.

About AIPAC

For more than half a century, the American Israel Public Affairs Committee has worked to help make Israel more secure by ensuring that American support remains strong. AIPAC today is a 100,000-member national grassroots movement described by The New York Times as "the most important organization affecting America's relationship with Israel".
